

Can you use a jug or a cup at home to explore capacity? Show the following capacities;

Full

Empty

Half full

Create your own emergency vehicle. Think about its features, sirens, flashing lights, hosepipes, ladders, bright colours. You could make one out of old boxes, bottle top lids, and cardboard tubes.

Find objects to weigh at home. Can you compare the weight of 2 objects and say which one is heavy and light? If you have a set of scales, use them to see if you are right!

I must try to...

- Read every day and sign your partnership book.
- Practise your harder to read and spell words.
- Try and complete one of these extra optional tasks each week.

Practise writing some of the Phase 2 harder to read and spell words. Can you write each one in the different colours of the rainbow?

F2 Homework

Can you complete an experiment? Freeze a toy inside a pot or box. When you take it out, watch what happens. Can you think of a way to speed this up?

Make a mini book to show some of the different types of transport we have been learning about. Draw a picture of the vehicles then label them with the sounds you can hear.

Retell the story of The Great Race to an adult at home. Can you make a simple story map to show what happens in the story?

Look at the different types of transport passing your house. Can you record how many of each vehicle you see?

Fill up a bowl with water (or do this at bath time). Can you find three things that float in the water and three things that sink?

Go on a winter walk, what signs of winter can you see and feel. What clothes did you have to wear to help keep you warm?

Can you complete a weather chart, draw a picture of what the weather is like each day for a week. See if the weather changes or if it stayed the same.
