

Glapton Academy Vision

This tree represents our School.

The leaves growing on our tree represent our children. Each one helps to create the ethos that underpins everything in our school. Without our children, the tree would be bare.

The rays of sunshine shining on our tree shower it with care and safety, ensuring that the tree flourishes. It's light and warmth ensures that all parts of our tree flourish equally.

The branches are our families, our staff, our Trust and our governors.

The owl is the knowledge & skills that are shared within our whole school, safely supported, and protected by our tree, creating life-long learners.

The roots of the tree are the vision and values, shared by everyone. Without this strong foundation our tree could not continue to grow from our Little Acorns & Saplings through to our Y6 Elms & Birches.
